Dear Miss Hurley

With the Ombudsman's Report now being available do you accept the following, please give a response to each individual question.

1. The DWP were aware of the identity of the DWP officer who had created the data protection breach from the initial enquiry dated 4th January 2002.
2. The DWP have difficulty in providing the response and information of the internal investigation between Andrew Frost and Stan Nelson due to the fact there was no investigation that actually took place and you now have the fear of incriminating yourselves.
3. The DWP have been deceitful not only to myself but to all public bodies concerned including Waldrons Solicitors, the Ombudsman, the Information Commissioner etc. If this is not the case you must accept the DWP have played a great part in the conspiracy towards myself in obscuring facts.

We realise how difficult it must be for the DWP to be honest and above board and ethical after such deceit has taken place. However as the proceedings will now be entering court, my suggestion is truth and honesty. I have enclosed a snippet of information from the 29th October 2002 giving Miss Virdee the opportunity to bring forward the truth.

Yours sincerely

M J Hossack
