

Good evening and welcome to the 5th video from dwpcorruption.co.uk on the 14th April 2008.

We are the independent watchdog for the department for works and pensions, in association with Second Family who can be found at [www.secondfamily\(hifen\)uk.com](http://www.secondfamily(hifen)uk.com).

We report on the corruption within the government, this includes government bodies, MPs, ombudsmen's, local council, NHS, schools, job centre plus, the department for works and pensions and I'm afraid to say ALL other related government bodies, you rely upon for truth, honesty and integrity.

Our video has been produced to inform the general public about corruption that affects you as the people of our country and the importance of our family's future.

In the past recent months we have managed to uncover several cases of severe corruption within many of our governments MPs actions, thus suggesting they appear to be part of **common purpose**, which is just a cover-up name for a modern twist of the free masons. Common Purpose can best be described as the cancer that is killing our government bodies transported by corrupt civil servants that cost you the tax payer millions of pounds every month.

After watching our video it will all become clear to you why you have not had a successful outcome with any complaint that has been taken to your MP, the reason being, government MPs are paid to support common purpose.

The method of common purpose is organised by senior government officials is known thought out the government departments as “Jobs for the Boys!”.

The method of common purpose is then spread to corrupt ministers and chief executives for each government department who then take away transparency and openness this done to keep the general public in the dark. It has been uncovered that Lesley Strathie, the Job centre plus chief executive, is Common Purpose trained alongside senior ombudsman Ann Abraham and appeals tribunal officer Humphrey Forrest.

It is true to say by exposing this corruption the common purpose network becomes weary and vulnerable to further exposure, through our own research we have proven in our own borough of Dudley the Finance Executive Andrew Spark, who’s annual income has been advertised on the internet as £166,000 per year, enjoying a upper class lifestyle paid for by his fellow neighbours taxes!

You can take for granted every council in the country is run by a common purpose official creating devastating corruption for you the general public, so you now know where you’re hard earned cash goes you pay in council tax!

If you want to help yourself, your family and your friends, please download and distribute as much information as you can from www.dwpcorruption.co.uk and if you can inform just 5 people about the corruption within the government and common purpose, our combine voice will become stronger, louder and we will be heard! Join the campaign to expose government corruption, email it to your MP to let them know you are aware of common purpose.

However we have become aware that most government departments and MPs have blocked all emails that contain certain words from members of the public. For more detailed information about Common Purpose visit www.ukcolumn.org, owned and run by Brian Gerrish and also contact Joe Stirling at [www.secondfamily\(hifen\)uk.com](http://www.secondfamily(hifen)uk.com). We can help you if you're prepared to help yourself.

As one can appreciate the cost of running such a website can be astronomical especially when you have got government officials closing you down, the costs to reinstate our website and also regular updates of information become expensive.

We ask and call upon all members of the public who read our information to consider making a small donation to help keep our site up and running and to help keep YOU informed of what is happening in the government day to day.

We are currently producing a Common Purpose - Action Pack that covers all areas of common purpose.
