Dear Karen Edwards

Re your letter dated 15 April 08 – your ref /200702311/KE

I thank you for the above letter and sincerely apologise for any delay in replying, which is due to many other unlawful obstacles that have also been unlawfully placed before me, which I have had to deal with in priority. I do however reply thus –

I enclose to you a self-explanatory letter to Anne Clwyd our local MP, where it will be shown of why I believe this is unlawfully happening in regard to the RCT, unlawfully not allowing us the advertised appeal against our existing rent being paid. For as stated in much previous documentation this lawful appeal procedure, is or was, clearly shown in their advertised website (of which I have copies).

The only reason that you might be experiencing any delay from RCT, is that they like the rest of people acting unlawfully, awaiting to illegally enter our property to unlawfully steal their own incriminating evidence. Which has happened many times in the past by others, of which they are not aware, as I have done with all RCT documentation, it is on several disc where all save my own copies are in complete safe storage.

Where it will be shown from the enclosed of my lawful petition and my own and many others lawful intentions. Where due to this statement of intention as is my legal right I would please request copies of all documentation the RCT submit to you, to be used in further evidence. I would however further state that the RCT are unlawfully dragging their heels in sending you your requested information, which is the same unlawful scenario we unlawfully experienced in their replying to our letters. Where I hope in the late sending of this reply you have now received that requested information.

I await your earliest reply
Yours faithfully

P Ronald
